ABOUT ME

My friends call me Gera. I am from Posadas, Misiones, Argentina.
 I am a Systems Analyst and Developer with extensive experience in Fullstack projects.
 I consider myself a very outgoing person. I enjoy meeting people and learning from their experiences in the field, as I believe that the best university in life is people's experience and what they have to teach.

WORK EXPERIENCE

ADDITIONAL INFORMATION

I want to highlight my Customer Service skills,
 as both in my current job and with my personal clients I have acquired the necessary abilities to carry out the entire Software Development Life Cycle — from requirement gathering, budgeting, development, deployment, and proper maintenance.
 I have multiple completed projects available to demonstrate my skills.
